

♦ Platform User Guide — School Principal ♦

For: the school principal — whose scope is their own school alone

The platform learns your school the first time you sign in and fixes it: you do not choose a complex or a stage on every screen, and you never see another school's schedule.

Before you start — four things that concern everyone

1. Open the link — <https://ahseyam.github.io/unified-lesson/>
2. Switch to English — the EN button, top right
3. Choose your role — one card per role
4. Enter your staff number — you are identified by it, not by your name

- Open the link: It runs on phone, laptop and tablet with nothing to install. Bookmark it — it is your single reference; do not rely on a copy someone sends you, or you will be working from yesterday's data.
- Switch to English: Press it once and the choice is remembered on your device. Arabic is the default for everyone, so nothing changes for your Arabic-speaking colleagues. You may enter your own text in English or Arabic — both are kept as typed.
- Choose your role: Each role sees only what concerns it: its own buttons, screens and reports. You will not see what is not yours, and you cannot press a button that destroys someone else's work.
- Enter your staff number: Names repeat and are spelled in different ways, so the same person appears twice in the reports. If your number is on the roster, your name and subject are filled in for you.

♦ **Step by step — with pictures** every screenshot is taken from the platform itself, not drawn or imagined

1 Sign in and choose your school once

- Choose the “School principal” card; you are asked for the sector, the complex and the school.
- It is then fixed for you — to change it, sign out and sign in again.

Unified Lesson Platform عربي

Choose your role — each role sees only what concerns it

Teaching teacher
Plans and issues their lesson, then sees its result and bridge action

Peer teacher
Sees the visits assigned to them, reads the plan and fills the peer card

School principal
Sees and schedules their school's lessons alone, scores any of them and approves the result

Academic deputy
Schedules their school's lessons, edits and deletes them, assigns the visiting teachers, and scores them

Subject supervisor
Sees their subject's lessons in the complex they visit each day, observes and approves them

Complex Director
Follows their whole complex and scores its lessons

Internal Evaluation Follow-up Team
Two from the central administration: they follow the whole system and score its lessons

Staff number

First name and family name

Sign in

2 My school's schedule

- You see your school's lessons alone: who has a lesson scheduled, whose plan is complete and whose is not.
- You may type in any cell of your school — completeness is your responsibility.
- Above the schedule, a line says how many names on the roster still have no lesson recorded, and opens their list.

The screenshot shows the 'Unified Lesson Platform' interface for 'Ibn Khaldun Schools'. The top navigation bar includes 'Previous', 'Stage 1 of 6', and 'Next' buttons, along with user information and a 'Sign out' button. The left sidebar contains a 'Programme stages' menu with options like 'School principal', 'Lessons that fail to you', and 'No lesson in your scope lacks a subject supervisor'. The main content area is titled 'Stage 1 • Unified lesson schedule for the external review' and includes a 'Read first' button. Below this, there is a detailed explanation of the platform's purpose and a list of six steps for using the schedule. A 'Unified lesson programme briefing' button is also present. The main section, 'Unified lesson schedule for the external review', features a table with columns for 'Education type', 'Educational complex', and 'Day'. The 'Education type' is set to 'National' and the 'Educational complex' is set to 'التفان'. The 'Day' column is empty. Below the table, there is a section for 'Your school:' with a dropdown menu showing 'التفان - Complex التفان'. A note states: 'Only your school's columns are open to you — to change them, sign out and sign in with another school.' At the bottom, there are buttons for 'Undo', 'My school's schedule', 'Who visits our school', 'Subjects — day and who attends', and 'Print'. A search bar is also available with a dropdown menu and a 'Go to the current week' button.

3 Observe the lesson

- Your capacity on the card is filled from your role — you are not asked for it and it is not changed here.
- Complete the rubric during the lesson: the indicators with their scores, and the evidence with what you saw.

⊖ What you write is attributed to you by name in the reports — write it precisely.

Peers 0/2

[Close lesson](#)

Read first [Collapse the guidance](#)

Stage 4 · Lesson observation

Five evaluators score, each within their own scope — the supervisor, the principal, the academic deputy, the complex manager and the internal evaluation follow-up team. Each evaluator has an independent form with its own score, and the adopted score is the average of those who scored. Two visiting teachers fill the peer card. And evidence is seen, not assumed: what is not observed during the lesson does not count.

1. Open the lesson and read the teacher's plan first — that is what you seek evidence for.
2. Complete the rubric indicator by indicator; "N/A" is for genuine exceptions, not an escape.
3. Open the diagnostic card for the strategy the teacher declared and rate its ten indicators.
4. Your form carries your name alone — no other evaluator overwrites it, and their score appears beside yours.
5. The peer teacher fills the peer card and takes one action away for themselves.

4 Approve the result and lock the lesson

- Once the observations are complete, the score, its level and the bridge action appear.
- Approval locks the lesson: after it, the schedule, the plan and the observations cannot be changed.

⚠ **Do not approve a lesson no one has observed — unlocking requires a confirmation and is recorded in your name.**

Stage 5 • After the lesson

The lesson ends with a documented score and one action to follow up — not a general impression. The bridge card is what carries the impact into daily lessons.

- Review the score, the percentage and the level, and the strategy indicator's score.
- Write in the bridge card one specific action that can be seen.
- Print the visit report or send it to the teacher on WhatsApp.
- At the next visit the action is opened to verify it was carried out.

5 School dashboard and reports

- Activation reports: who planned and who did not, who has been observed and who is waiting.
- Results reports by indicator, by teacher and by stage — exported as CSV for analysis.

❖ Where things usually go wrong before you ask — the most common cases

Why, and what to do	What happens
Because you do not rotate between complexes. That is for the subject supervisor alone.	I do not see “Where I visit — supervisor rota”
Assignment belongs to the academic deputy — they are the one who sees it.	I do not see “Assign peers”

❖ Frequently asked

Q: Do I see the complex's other schools?

A: No. Your scope is your school, and that is deliberate, to protect others' data.

Q: I run two schools — how?

A: Sign out and sign in with the other school; what you entered in the first is kept as it was.

Who to contact

If what concerns you does not appear, or something that is not yours does — contact the Planning and School Accreditation Department.

If the page does not open at all — check the link above and your connection.
