

♦ Platform User Guide — Internal Evaluation Follow-up Team ♦

For: two members of the central administration — their scope is the whole system

Your scope is the **whole system**: both sectors, the complexes and the schools. You make sure no lesson is left without an observer, **and you observe too**: each of you has an independent form with its own score and name. The adopted score for a lesson is the average of those who scored it.

Before you start – four things that concern everyone

1. Open the link — <https://ahseyam.github.io/unified-lesson/>
2. Switch to English — the EN button, top right
3. Choose your role — one card per role
4. Enter your staff number — you are identified by it, not by your name

- Open the link: It runs on phone, laptop and tablet with nothing to install. Bookmark it — it is your single reference; do not rely on a copy someone sends you, or you will be working from yesterday's data.
- Switch to English: Press it once and the choice is remembered on your device. Arabic is the default for everyone, so nothing changes for your Arabic-speaking colleagues. You may enter your own text in English or Arabic — both are kept as typed.
- Choose your role: Each role sees only what concerns it: its own buttons, screens and reports. You will not see what is not yours, and you cannot press a button that destroys someone else's work.
- Enter your staff number: Names repeat and are spelled in different ways, so the same person appears twice in the reports. If your number is on the roster, your name and subject are filled in for you.

1 Sign in with your role

- Choose the “Internal evaluation follow-up team” card — it is the last of them.
- You are asked for neither a subject nor a complex: your scope is the whole system.

Choose your role — each role sees only what concerns it

Teaching teacher

Plans and issues their lesson, then sees its result and bridge action

Peer teacher

Sees the visits assigned to them, reads the plan and fills the peer card

School principal

Sees and schedules their school's lessons alone, scores any of them and approves the result

Academic deputy

Schedules their school's lessons, assigns the visiting teachers, and scores them

Subject supervisor

Sees their subject's lessons in the complex they visit each day, observes and approves them

Complex Director

Follows their whole complex and scores its lessons

2 Read the schedule

- You see every lesson in the system: both sectors, the complexes and the schools.
- No cell is edited — following up is reading, not writing.

Stage 1 - Unified lesson schedule for the external review

This screen is the unified lesson schedule for the external review inside the platform: one sheet per complex, with rows for the day by the peer teacher's subject, and columns for the periods with their start times. Under each period are five fields: teacher - strategy - teaching approach - class - start time. Whatever is entered in a cell becomes a lesson, and from that cell the lesson begins, its data flowing into the plan.

1. Choose the sector and the complex, then filter the columns by your school using the checkboxes — and whoever signed in as a principal or a deputy has their school fixed for them. Then your subject, if you are a teacher.
2. Week: leave it on "All weeks" to see the whole term as in the spreadsheet, or pick one week.
3. In the lesson cell enter: the teacher's name, the strategy from the bank, the teaching approach, and the class.
4. The visiting subject team for each day appears in the first cell of its row and is edited there.
5. Press "Start lesson" in the cell — the planning stage opens with its data already filled in.

3 Follow what has no supervisor

- The "Lessons with no subject supervisor" report is your first task: who observes them, and whether they have been observed.
- If one remains with no observer, you alert the deputy or the complex manager.

4 Observe the lesson

- Open the lesson under “Lesson observation”; your capacity is filled in from your role.
- Fill the form and the strategy card — each of you has their own form.

⚠ Your form carries your name, and no other observer overwrites it — their score appears beside yours.

❖ Where things usually go wrong before you ask — the most common cases

Why, and what to do	What happens
Under “Lesson observation” once the lesson is open — and a bar at its head moves you between the teacher's prep, the form and the strategy card.	Where is the form?
Yes: your scope is the whole system, unlike the complex manager who is confined to theirs.	I see every lesson in the system — is that right?

❖ Frequently asked

Q: Does our score count towards the lesson average?

A: Yes — the adopted score is the average of everyone who scored, so yours is part of it.

Q: How do we know what is late?

A: The “Missing entries” report measures the schedule against the teacher roster and names whoever has not registered yet.

Who to contact

If what concerns you does not appear, or something that is not yours does — contact the Planning and School Accreditation Department.

If the page does not open at all — check the link above and your connection.
