

◆ Platform User Guide — Subject Supervisor ◆

For: the subject supervisor in educational supervision

Your scope is a subject, not a school: you see your subject's lessons in the complex you visit each day, you observe them and approve their result. The subject and day filters narrow the schedule in a second.

Before you start — four things that concern everyone

1. Open the link — <https://ahseyam.github.io/unified-lesson/>
2. Switch to English — the EN button, top right
3. Choose your role — one card per role
4. Enter your staff number — you are identified by it, not by your name

- Open the link: It runs on phone, laptop and tablet with nothing to install. Bookmark it — it is your single reference; do not rely on a copy someone sends you, or you will be working from yesterday's data.
- Switch to English: Press it once and the choice is remembered on your device. Arabic is the default for everyone, so nothing changes for your Arabic-speaking colleagues. You may enter your own text in English or Arabic — both are kept as typed.
- Choose your role: Each role sees only what concerns it: its own buttons, screens and reports. You will not see what is not yours, and you cannot press a button that destroys someone else's work.
- Enter your staff number: Names repeat and are spelled in different ways, so the same person appears twice in the reports. If your number is on the roster, your name and subject are filled in for you.

◆ **Step by step — with pictures** every screenshot is taken from the platform itself, not drawn or imagined

1 Sign in and choose your subject

- Choose the “Subject supervisor” card, then your subject — your scope is known from it.
- If your number is on the roster, your subject is filled in for you.

⚠ **The subject is a taught subject, not a university qualification: someone qualified in chemistry appears under “Science”.**

Unified Lesson Platform

Choose your role — each role sees only what concerns it

Teaching teacher

Plans and issues their lesson, then sees its result and bridge action

Peer teacher

Sees the visits assigned to them, reads the plan and fills the peer card

School principal

Sees and schedules their school's lessons alone, scores any of them and approves the result

Academic deputy

Schedules their school's lessons, assigns the visiting teachers, and scores them

Subject supervisor

Sees their subject's lessons in the complex they visit each day, observes and approves them

Complex Director

Follows their whole complex and scores its lessons

Internal Evaluation Follow-up Team

Two from the central administration: they follow the whole system and score its lessons

Staff number

First name and family name

Sign in

2 Narrow the schedule by subject and day

- The “Subject you visit” and “Day” filters sit above the schedule.
- The “My visit today” button sets the week, the day and the complex from today's date in one press.
- Together they bring the rows down from hundreds to your lessons alone.

Stage 1 • Unified lesson schedule for the external review

This screen is the unified lesson schedule for the external review inside the platform: one sheet per complex, with rows for the day by the peer teacher's subject, and columns for the periods with their start times. Under each period are five fields: teacher · strategy · teaching approach · class · start time. Whatever is entered in a cell becomes a lesson, and from that cell the lesson begins, its data flowing into the plan.

1. Choose the sector and the complex, then filter the columns by your school using the checkboxes — and whoever signed in as a principal or a deputy has their school fixed for them. Then your subject, if you are a teacher.
2. Weeks: leave it on "All weeks" to see the whole term as in the spreadsheet, or pick one week.
3. In the lesson cell enter: the teacher's name, the strategy from the bank, the teaching approach, and the class.
4. The visiting subject team for each day appears in the first cell of its row and is edited there.
5. Press "Start lesson" in the cell — the planning stage opens with its data already filled in.

Stage 4 - Lesson observation
Collapse the guidance

Five evaluators score, each within their own scope — the supervisor, the principal, the academic deputy, the complex manager and the internal evaluation follow-up team. Each evaluator has an independent form with its own score, and the adopted score is the average of those who scored. Two visiting teachers fill the peer card. And evidence is seen, not assumed: what is not observed during the lesson does not count.

1. Open the lesson and read the teacher's plan first — that is what you seek evidence for.
2. Complete the rubric indicator by indicator; "N/A" is for genuine exceptions, not an escape.
3. Open the diagnostic card for the strategy the teacher declared and rate its ten indicators.
4. Your form carries your name alone — no other evaluator overwrites it, and their score appears beside yours.
5. The peer teacher fills the peer card and takes one action away for themselves.

❖ Where things usually go wrong before you ask — the most common cases

Why, and what to do	What happens
Set the "Subject" filter to your subject and "Day" to your visit day — or press "My visit today".	I see many rows that do not concern me
Assignment belongs to the academic deputy — it is not in your scope.	I do not see "Assign peers"

❖ Frequently asked

Q: I cover more than one subject — what do I do?

A: The subject filter can be changed at any time from the same screen, without signing out.

Q: Whose lessons do I approve?

A: Those you observed yourself. Approval of a school's lessons is shared with its leadership.

Who to contact

If what concerns you does not appear, or something that is not yours does — contact the Planning and School Accreditation Department.

If the page does not open at all — check the link above and your connection.
